UNDERSTAND TO LEAD

COMPANY PROFILE

ABOUT TRUNGDO

Established in 1958, TRUNGDO has carried out the missions to build government manufacturers and infrastructures according to the guidance of Vietnamese Ministry of Construction. TRUNGDO's constructions have left a great mark on the development of the country.

After equitization, TRUNGDO quickly restructured into production. Focusing on customer's needs and innovation, we have become one of the leaders in the building materials industry.

With a long history of research and development in the field of construction, TRUNGDO will always attempt to be trusted for our valued Customers and Business partners

OUR VISION

To become the leading manufacturer of building materials in Vietnam by focusing on innovative and breakthrough products

OUR MISSION

- 01. Innovative Technology**
Applying the most advanced and breakthrough technology in the production line.
- 02. Outstanding Products**
Constantly researching products that surpass the traditional framework
- 03. Environmental protection**
Applying solutions to protect the environment and consumer health.

CORE VALUES

-  High credibility in partnership
-  Outstanding quality
-  Dedication in work
-  Creativity is vital
-  Responsible for society

OBJECTIVES

As a pioneer in the building materials production in Vietnam, TRUNGDO intends to keep researching and developing for the new featured products every year and by the end of 2025, the biggest complex of building materials production in Vietnam is completed by Trungdo

MILESTONES

1958

Vinh Architecture Company was founded

Focused on Civil Construction.

1992

Construction of Circuit 1 & 2 500kV

One of symbol projects showing our excellent techniques.

BUSINESS SEGMENTS

65 years CONSTRUCTION

- Industrial construction
- Civil constructions
- Traffic and irrigation works
- Power lines and substations
- Construction consulting

45 years MANUFACTURING

- Sintered stone
- Porcelain tiles
- High quality glazed ceramic roof tile
- Fireclay brick
- Ready mix Concrete

25 years REAL ESTATE

- Invest in urban areas
- Luxury apartment
- Shopping mall
- Office for rent

■ OUR PRODUCTS

SLABSTONE

SLABSTONE sintered stone is combined from more than 20 kinds of natural minerals, using heating technology at temperatures over 1200°C - sintering mineral particles together to help the product have outstanding durability over time.

With dimensions up to 1600x2400mm and diverse thicknesses, SLABSTONE is a revolutionary material and the choice for 21st century architectural projects.

- Location: Embassy Area, Vo Chi Cong, Hanoi
- 22km from Noi Bai airport
- Scale: 2 basement floors and 21 floors
- Numbers of flats: 170 units

COMMITTED TO GREEN

TECHNOLOGY

Our bold investment in highest technology not only to produce the best quality products, but also to comply with our mission of environment protection.

0.06 KWH/m2

Save consumption of electrical power by a factor of six

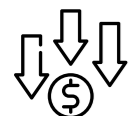

3% & 100%

Less scrap 3% with 100% recyclability.

400 tons CO2/year

Less CO2 emission than traditional pressing.

95% hydraulic oil

Use less 95% hydraulic oil leads to lower cost of maintenance.

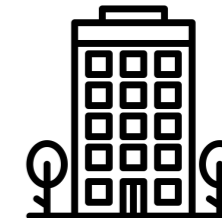

FACTORY DESIGN

OPTIMAL LOGISTIC

Materials sources set up near the factory allows reduction of CO2 emission from long distance logistic.

BUILDING DENSITY

Our building density is **39.2%**, less than two third of the least requirement by QCVN 01:2019/BXD 01:2019/BXD

RENEWABLE ENERGY

Use of solar panels on the roof of the factory to supply electricity for production.

3.500 KWH/day

Supply of 3.500 kwh/day for production.

3-5 celcius

Reduce heat inside factory.

2.841 tons/day

Save 2.841 tons CO2 per day

COMMITTED TO SOCIETY

EDUCATION

TRUNGDO has been an active corporate supporter of the education at remote area.

Classrooms for children in remote areas with difficult circumstances.

Water filtration system for children and teachers from remote school.

HUMANITARIAN ACTIVITIES

TRUNGDO regularly contributes to the humanitarian projects by cooperating with local NGO organisations.

We donate our products, sending funds to those who were underprivileged, affected by disasters and support many health awareness programs.
